NUT FREE

If user press each preference, the site will take them to a crafted menu made ^{specials} ~~for~~ ^{their} dietary preference.

* FREE FROM ALL is Lebanese Taverna, which is a menu which is food served at lactose free, gluten-free, and nut-free, menu.

* 7th CLICK just takes user to non-alcoholic menu

METADATA PLAN

Filter	Rationale
Menu Filer	A great way for users to locate a page which is filled with a category of menus the restaurant has to offer.
Show All (menu page)	User new to the restaurant might want to see all the product the restaurant has to offer, so show all filter allows all the menu to be visible into one for users.
Dietary Preference	In a diversely populated area such as the DC,Maryland, and Virginia area there are a lot of customers who have dietary preferences such as vegan,vegetarian, and etc. Making a filter for this subgroup of people to have menus crafted for their dietary needed
Sort	A way to sort menus from low to high price range, high to low, most popular, food menu, and beverage menu (inspired by Amazon). User might want the menus to be sorted in this particular fashion.

METADATA RECORD

Menu Filer	Mezza, Entrees, Salad,Sandwiches,taste of Lebanon,Sweet Endings,Champagne & Sparkling Wine, ,Lebanese White Wines,Lebanese Rose Wines,Lebanese Red Wines,Sweet Wines,Tavern Sangria,Crafted Cocktails,Beers,Non-Al coholic Refreshers menus.
Show All	Page which shows all of the menus

Dietary Preference	Vegetarian, vegan, gluten free, lactose free, but free, free from all, and non alcoholic.
Sort	low-to- high, high-to-low, most popular, food menu, and beverage menu.
